

# Welcome to a SIANI - SLU Global Seminar

# **Bending the curve – Africa's unfolding agrifood system and diet transformation**

**13 April 2016, 13:00 - 19:00**

**Lecture room S, Ulls hus, Almas allé 8, Uppsala**

In conjunction with the upcoming Uppsala Health Summit in 2016, a pre-conference workshop with invited specialists working with these issues from a policy, advocacy and research perspective have been invited to share their expertise and diverse perspectives.

Short presentations will be made in plenary to highlight key issues and possible gaps requiring further understanding.

The workshop is organized around three themes:

**1. Adolescent Perceptions on Diet, Physical Activity, Body Size, and Obesity in Botswana (Rural-urban transition)**

**2. Impact of Maternal Nutrition Deprivation and Later Life Chronic Non-Communicable Disease Risk as Part of the Nutrition Transition**

**3. Capacity for Scaling Up Nutrition Interventions—Lessons from West Africa**

Participants attending this workshop are expected to identify one of the three themes around which they will

form groups for discussion. After the presentations, participants will have one hour to discuss and share experiences relating to their particular theme. The final outputs of the group discussions should be specific questions to be addressed in the forthcoming Uppsala Health Summit in a workshop session "Migration and the Food Environment".

For the full program of the workshop, please visit the website of the event at <http://www.siani.se/event/uppsala-health-summit-2016-pre-conference-workshop/april-2016>

For registration, please contact [Kyla.Krogseng@slu.se](mailto:Kyla.Krogseng@slu.se) and indicate with which theme you intend to participate in the discussion. Kindly RSVP by 5 April 2016
