Seminar/webinar – Wednesday 27 April, 2022

Collaboration in Landscapes for Sustainable Development – hybrid dialogue with Tony Simons CIFOR-ICRAF

Plant nursery in Yangambi, DRC. Photo by Axel Fassio/CIFOR

In the light of the latest IPCC reports, the ongoing global food security crisis and continuing degradation of land, ecosystems and biodiversity, there is an urgent need to collaborate for multifunctional landscapes to tackle human needs as well as restore ecosystems.

The global community needs to find sustainable economic pathways and as the IPCC report on mitigation, stress restoration of landscapes is fundamental to solve the climate and biodiversity crisis. *However, where will the investments and initiatives for integrated and sustainable landscape management and restoration come from? What can we learn from ongoing effort, by civil society, private and public actor, to create incentives and pathways for integrated and resilient landscape action?*

KSLA, SIANI, Focali and SLU hereby invite you to a seminar with Tony Simons, Executive Director, CIFOR-ICRAF (the Center for International Forestry Research, CIFOR, and World Agroforestry, ICRAF) who is visiting Sweden. Tony Simons was appointed Fellow to KSLA in 2020 and will now have an opportunity to present his work and elaborate on what role Swedish institutions and CIFOR-ICRAF can play in meeting the intertwined challenges the world faces today. Swedish actors representing different sectors will share their work. Cases will be shared about collaborative work to restore landscapes to meet several goals at once as reversing environmental degradation, at the same time as income, food, fodder and material can be generated for local livelihoods and/or for local and global markets. Following the case presentations from different sectors and time for questions to the speakers, a panel discussion will be facilitated on how we, in broad partnerships, can collaborate and invest in landscapes for sustainable development.

Welcome!

Eva Pettersson
Academy Secretary General, Managing Director

Time & venue

Wednesday 27 April 2022
at 1.15–3.30 PM

Limited number of physical attendees. For participation via Zoom, link will be e-mailed the day before.

Registration

No later than 26 April:
<https://dinkurs.se/79713>

Cancellations by physical participants must be made no later than 26 April, or we will invoice SEK 500.

Programme – Wednesday 27 April, 2022

Collaboration in Landscapes for Sustainable Development – hybrid dialogue with Tony Simons CIFOR-ICRAF

Moderator: Ng'endo Machua-Muniu, Communications Officer AgriFoSe2030 and Stockholm Environment Institute.

Co-moderator: Maria Ölund Project Manager Focali – SIANI at Gothenburg Centre for Sustainable Development.

- 11.30 **Lunch for participants at KSLA**
- 13.15 **Welcome**
Eva Pettersson Academy Secretary General and Managing Director, KSLA
- 13.20 **Tony Simons, Executive Director, CIFOR-ICRAF**, Director General ICRAF and Fellow of KSLA
Q&A with Tony Simons
- 13.45 **Capacity development programs in landscapes:**
The LoCoFoRest (Locally Controlled Forest Restoration) training programme. A Governance and Market Oriented Approach for Resilient Landscapes.
Anders Malmer International coordinator, Swedish Forest Agency and Adj Professor, SLU and Lotta Samuelson Program Manager SIWI Team Lead Resilient Landscapes.
Q&A with capacity development programs
- 13.55 **Civil society and development actors in landscapes**
Bo Lager, Senior Policy Advisor Agriculture, The Swedish Society for Nature Conservation.
Q&A with civil society actors
- 14.15 **Leg stretch**
- 14.20 **Private sector actors in landscapes**
Mikhail Tarasov, Global Forestry Manager, IKEA of Sweden AB
- 14.30 **Finance of Sustainable Landscapes**
Speaker tba
Q&A with private sector and financial representatives
- 14.50 **Panel discussion**
- 15.15 **Concluding reflection**
Elisabeth Simelton, Senior Policy Specialist Agriculture Swedish International Development Cooperation Agency (Sida), Climate Change Scientist previously at ICRAF Vietnam and member of the Focali research network.
- 15.25 **Summary**
- 15.30 **Coffee and mingle for participants at KSLA**
