

# SIANI Annual Meeting 2022: Facts that we learned during the interactive sessions

SIANI must continue its work with the expert groups and consider redefining them by

**Bringing in different actors, and connections from other parts of the world.**

**Better articulate and broadcast the role of SIANI as a network.**

What key strengths does the network have that can be leveraged to significantly impact a bigger scale?

Is SIANI focusing more on research and advocacy or mainly on supporting producers?

**SIANI should be more close-to-reality; adapt quicker to external events while continuing to think outside the box.**

**SIANI must continue to work as a communications platform.**

- Capturing reality and ongoing discussions quicker.
- Highlighting challenges that are not captured in decision-making.

- Raising awareness.
- Sharing knowledge from and towards different sectors.
- Focusing on success stories to serve as inspiration.
